TERMS OF REFERENCE FOR INVESTMENT ADVISOR

Background

The Ministry of Planning, Investment and Economic Development (MOPIED) has completed developing a new National Development Plan (NDP), the first in a period of 30 years. The NDP has been formulated through an inclusive and transparent process while engaging sectoral Ministries of the Federal Government and Federal Member States, civil society, parliament and academia as well as the international development partners. The plan sets out priorities for Somalia for the period 2017 - 2019 and embeds sustainable development goals, adapting them to the national context.

As per decision announced at the May 11 London Conference in 2017, the NDP builds on the achievements of the New Deal Compact, maintaining a slightly modified oversight, planning and coordination architecture as well as the link between political, security and development priorities. It also addresses the aid management and coordination, development effectiveness and New Deal principles for engagement in fragile states. It is a priority for the Federal Government of Somalia to ensure coherence and continuity between the ended Somali Compact and the NDP, both in terms of development and reconstruction priorities and of use of existing coordination structures, funding and implementation mechanisms.

The purpose of the NDP is to provide guidance to national authorities, international partners and other stakeholders (private sector, civil societies and citizens at large) in Somalia as they shape a medium term strategic framework to build upon achievements of the past few years, further strengthen the Federal Member State structures, create a favourable environment for private and non-government sector development, and – importantly - bring the benefits of the development efforts to the citizens.

The NDP has the following four keys interrelated objectives

1. Articulate government development priorities: to set out a clear vision for Somalia's security, social and economic development priorities. In addition, the objectives include defining the key state building and peace building priorities including democratic governance and aligns with the Sustainable Development Goals (SDG) as much as possible.

2. Provide a structure for resource allocation and management, and guide the NDP priorities within the annual budget allocations in 2017 and beyond
3. Guide Development Partner support within the defined FGS priorities in the coming three years in terms of structure and well-defined funding priorities, whilst ensuring FGS leadership of the development agenda and existing and new development Trust Funds
4. Serve as an Interim Poverty Reduction Strategy for Somalia that is aligned with the global SDG initiative. The Plan also meets Somalia's on-going commitments as set out in the Somalia Compact as prioritized within the NDP.

As MOPIED is planning the implementation process of the newly developed NDP, we seek to hire an investment advisor to facilitate the implementation of the investment promotion under the priorities of the NDP.

Main Objectives for the Investment Advisor

1. Provide a coordination forum in which all the appropriate Federal Ministries and Federal Member States (FMS) collaborate with the aim to implement the Somali National Development Plan (NDP)
2. Engage all related institutions of NPD, and provide feedback on investment promotion

Expected Deliverables from the Investment Advisor

1. Review the existing internal and external policies related to domestic and international firms that are interested in investing Somalia
2. With consultations of the Minister and the Permanent Secretary and other relevant directorates of the MOPIED, set policy frameworks for investment promotion in Somalia
3. Develop and update tools for the collection, analysis and management of Somalia's investment programs
4. Establish close relations with the Directorate of the International Cooperation at the Ministry of Foreign Affairs on the issues of bi-lateral agreements on investment
5. Engage and work closely with the Directorate of Statistics at the MOPIED, and generate indicators that are related to investment in Somalia
6. Engage the FMS and provide technical assistance related to the domestic and international investors that are working at the local level
7. Promote investment in Somalia by establishing a communication line with domestic and international investors

REQUIRED QUALIFICATIONS

- Master's Degree in Finance or Public Administration or Business Administration
- Minimum of eight (8) years of Public Administration or relevant work experience
- Managerial experience in the field of development cooperation
- Deep understanding in how the International Financial Institutions (IFIs) work

- Proven experience working with Government, civil society, international organizations and donors
- Experience in the usage of computers and office software packages (MS Word, Power-Point, Excel, etc.)
